Experience

Windemere Field Research Station , Windemere	Sep 2023 – Aug 2025
Research Assistant	
- Coordinated data-collection schedules across four field teams, resolving conflicting timelines when equipment bookings overlapped. - Used Python and pandas to clean inconsistent sensor logs, and began exploring how better tooling could prevent the same mistakes upstream.	

Projects

Personal Website	Dec 2025 – Dec 2025
Hugo, HTML	
Set up a personal academic site from a Hugo template, configuring continuous integration for automatic deployment.	
Procedurally Animated Spider	May 2025 – May 2025
C#, Unity	
Explored procedural animation in Unity and C#, building a spider whose walking gait adapts to uneven terrain.	

Education

Windemere State University , Windemere	May 2023
Bachelor of Science in Environmental Science	
Coursework: Research Methods, Data Analysis, Project Planning, Statistics	

Activities & Extracurriculars

Windemere Lab Coordination Committee , Scheduling Lead	Jan 2025 – Aug 2025
- Took over scheduling after a missed handoff delayed a shared instrument by a week, introducing a shared calendar all teams could see. - Realized coordinating other people's work satisfied her more than debugging her own code, and began looking toward technical program management.	

Skills & Interests

Language: C#, C/C++, Python, JavaScript, Go
Frontend: Tailwind CSS, HTML/CSS
Data: Data Analysis (pandas)
DevOps: CI/CD
