Education

Brightwell University , Brightwell	May 2026
Bachelor of Science in Computer Science; Minor in Entrepreneurship	GPA: 3.5/4.0
Coursework: Game Programming, Intro to Business Strategy, Software Design	

Projects

Wuxingzhanji , Independent Project	Feb 2024 – Jun 2024
C#, ShaderLab, HLSL	

- Built a turn-based strategy game in C# with custom shaders across 9,471 files over 30 active days.
- Drafted a short design document scoping core mechanics before development to avoid rebuilding systems mid-project.

Trunbaseddemo , Independent Project	Nov 2025 – Sep 2026
C#, ShaderLab, HLSL	

- Continued developing a turn-based game prototype in C# and HLSL over 160 active days and 200 commits.
- Cut a planned multiplayer mode after estimating it would delay a playable demo by months.

2D Roguelike , Independent Project	Apr 2026 – Apr 2026
C#	

- Prototyped a 2D roguelike in C# across 102 files to test a shorter, sellable game concept.
- Wrote a one-page pitch outlining the game's hook after friends struggled to describe it back.

Activities & Extracurriculars

Brightwell Indie Makers , Founding Member	Mar 2024 – Present
• Co-founded a small group of student developers sharing feedback on solo game projects before release. • Introduced a monthly demo night after noticing members rarely finished projects without an external deadline.	

Skills & Interests

Language: C#

Product: Technical Writing
