Experience

Northfen Localization Services, Portage Hollow Jun 2024 – May 2025
Translation Quality Reviewer

- Reviewed machine-translated support articles for a logistics client, flagging phrasing that native speakers found confusing before publication.
- Cataloged recurring mistranslations tied to domain-specific jargon, sparking interest in how language models handle specialized vocabulary.

Projects

Personalcoder Aug 2026 – Aug 2026
Python, C++

- Fine-tuned a small language model with PyTorch, Hugging Face transformers, and PEFT, exploring how adapter-based training affected outputs on a coding-assistant dataset.
- Wrote automated tests around the fine-tuning pipeline to check that data preprocessing behaved consistently across runs.

Codedoctor Aug 2026 – Aug 2026
Python, C, Makefile, Dockerfile

- Packaged a Python and C diagnostic tool with Docker, building an automated test suite across roughly 795 source files.

Education

Cardwell University, Portage Hollow May 2025
Bachelor of Arts in Linguistics; Minor in Computer Science GPA: 3.6/4.0
Coursework: Computational Linguistics, Data Structures, Applied Machine Learning, Database Systems

Skills & Interests

Language: C/C++, Python, Java, SQL
Backend: Spring Boot
Data: Redis
AI/ML: Natural Language Processing, Deep Learning
DevOps: Docker
Quality: Unit Testing
Product: Technical Writing
