

Owen Baptiste

Foss Hollow | (555) 011-2947 | owen@kestrelridge.example | linkedin.example.com/in/owen-baptiste | github.example.com/applicant0121

Education

Kestrel Ridge College , Foss Hollow	December 2026
Bachelor of Science in Computer Science; Minor in Technical Communication	GPA: 3.5/4.0
Coursework: Operating Systems, Embedded Systems, Technical Writing for Engineers	

Projects

Drowsiness Detection	Jun 2022 – Jun 2022
-----------------------------	---------------------

Python

- Built a Python-based driver drowsiness detection system with serial communication to an Arduino for a university project.

Biddyutbill

Jul 2023 – Sep 2026

Dart, PHP, C++, CMake

- Collaborated on a university group billing application built with Dart, PHP and C++ across a shared codebase.

Activities & Extracurriculars

Kestrel Robotics & Mobile Club , Documentation Volunteer	Sep 2022 – Present
---	--------------------

- After classmates struggled to reproduce Arduino serial-communication setups, wrote a step-by-step Linux environment guide covering ports, permissions and drivers.
- Fielded setup questions from newer members and kept a shared troubleshooting log, discovering they preferred explaining configuration to writing new features.

Skills & Interests

Language: Python

DevOps: Linux & Server Administration

Mobile: Flutter, Native iOS/Android
