Projects

Olitunapp Dec 2025 – Sep 2026
Dart, JavaScript, Python, HTML

- Built an offline-first learning platform for the Ol Chiki script using Flutter and Appwrite, integrating a translation API and automated tests.

Offline Qr School Attendance Aug 2026 – Sep 2026
TypeScript, HTML, Shell, PLpgSQL

- Developed a TypeScript attendance system with Playwright end-to-end tests and Docker packaging, coordinating schema changes across Shell and PLpgSQL scripts.

Activities & Extracurriculars

Northfield Open Language Tools, Project Coordinator Jan 2026 – Present

- After translation contributors and engineers kept missing each other's updates, set up a shared changelog tying content changes to releases.
- Found that clarifying who owned each milestone reduced blocked handoffs more than adding new features, sparking interest in coordination work.
