Education

Norrfjord Polytechnic, Norrfjord Jun 2026
Bachelor of Computer Applications in Computer Applications; Minor in Statistics
Coursework: Data Analysis with Python, Applied Statistics, Database Fundamentals, Artificial Intelligence Lab

Projects

Sysinfo AMD Apr 2021 – Apr 2021
Python, PySide2

- Built a PySide2 desktop tool to monitor CPU, GPU and RAM usage on AMD systems, reading live hardware stats.

AI Lab Programs Aug 2025 – Nov 2025
Python, Jupyter Notebook

- Worked through a semester of AI lab exercises in Python and Jupyter notebooks, iterating over 17 active days.

Perpcheck 2.0 Apr 2020 – Apr 2021
Python, PyQt5

- Built a PyQt5 desktop app matching faces against a records database, then grew wary of trusting matches uncritically.

Activities & Extracurriculars

Norrfjord Polytechnic Coding Circle, Member Apr 2020 – Present

- Solved timed coding challenges with peers, including a compound-word puzzle that pushed for a cleaner, less brute-force solution.
- After a facial-recognition side project raised questions about false matches, started asking harder questions about how training data was collected.

Skills & Interests

Language: Python
Data: Data Analysis (pandas)
