Education

Brindleport Polytechnic College, Brindleport June 2026
Bachelor of Engineering in Software Systems; Minor in Organizational Communication GPA: 4.5/5.0
Coursework: Software Architecture, Collaborative Engineering, Technical Communication

Experience

Morrowline Systems Workshop, Brindleport May 2025 – Aug 2025
Software Engineering Intern

- Took ownership of a handoff note after teammates lost time reconstructing changes between sessions, comparing constraints when assumptions conflicted.
- Found removing ambiguity for other engineers moved projects forward like completing an individual task, sparking interest in technical coordination.

Projects

Deneb, Independent Project Mar 2026 – Sep 2026
Go, Kotlin, Python, TypeScript

- Developed Deneb, a personally optimized AI agent, across a repository containing 5,448 files.
- Worked across Go, Kotlin, Python and TypeScript, maintaining continuous integration and a test suite through 200 commits over 17 days.

Osty, Independent Project Apr 2026 – Jul 2026
Swift, Go, C, C++

- Built across Swift, Go, C and C++ in a 1,663-file repository using system and terminal packages.
- Maintained continuous integration and an automated test suite through 200 commits over 14 days.

Phaeton, Independent Project Apr 2026 – Jun 2026
TypeScript, Go, CSS, Shell, Docker

- Developed an energy-business operations tool using TypeScript, Go, CSS and Shell across 354 files, with continuous integration, testing and Docker packaging.

Activities & Extracurriculars

Brindleport Build Circle, Peer Maintainer Sep 2025 – Jun 2026

- Started end-of-session handoffs after peers duplicated work when unfinished decisions lived in conversation, giving contributors a starting point.
- Facilitated occasional retrospectives around blocked work, focusing discussion on ownership and process changes rather than who had made the mistake.

Skills & Interests

Language: Go, Python, TypeScript
Data: Data Modeling, Data Analysis (pandas)
DevOps: CI/CD, Docker, Linux & Server Administration
Quality: Unit Testing
Mobile: Native iOS/Android
Product: Technical Writing
