

Finnian Cross

Thistlewood | (555) 010-0158 | finnian@thistlewood.example | linkedin.example.com/in/finnian-cross | github.example.com/finnian-cross

Education

Thistlewood Technical College, Thistlewood May 2027
Bachelor of Science in Computer Science; Minor in Technical Communication GPA: 3.65/4.0
Coursework: Systems Programming, Software Tools, Technical Writing for Engineers

Projects

Go Truenas Jun 2025 – Mar 2026

Go

- Built a Go client for the TrueNAS Scale websocket API across 66 files, with continuous integration and an automated test suite.
- Documented setup steps in detail after realizing the official API had little public reference material to build against.

Unusedfunc

Nov 2025 – Sep 2026

Go

- Wrote a Go linter that identifies unused functions across a project, structured across 227 files with CI and automated tests.

Rumpus

Oct 2025 – Jan 2026

Lua, Nix, Shell

- Designed Rumpus, a terminal color scheme across 29 files, packaged with continuous integration for consistent releases.

Activities & Extracurriculars

Thistlewood Self-Hosting Group, Documentation Contributor Oct 2025 – Present

- Writes setup guides for small self-hosted tools after watching newcomers abandon projects that had code but no onboarding notes.
- Learned that a well-scoped README changes how many people actually try a tool, and began prioritizing it before new features.

Skills & Interests

Language: Go

DevOps: CI/CD, Docker (Advanced)

Quality: Unit Testing

Product: Technical Writing
