Education

Oakmere University, Oakmere May 2027
Bachelor of Science in Computer Science; Minor in Organizational Behavior GPA: 3.6/4.0
Coursework: Software Engineering Practices, Mobile Development, Team Dynamics

Projects

Mastodoncli Apr 2023 – Sep 2026

Go

- Built a Go command-line and terminal-UI client for a social network, with OAuth login, timeline browsing, and an automated test suite.

Projeto Mobile

Oct 2023 – Feb 2026

TypeScript, Java, Objective-C

- Contributed to a cross-platform mobile app spanning TypeScript, Java, and Objective-C, covering parts of it with automated tests.
- Untangled handoff confusion after native and web pieces drifted out of sync, tracking which language owned which feature.

ProjetoUlbra

Sep 2023 – Feb 2026

Java

- Built a Java class project across dozens of files with a classmate, splitting work along module boundaries.

Activities & Extracurriculars

Oakmere CS Study Cohort, Coordinator Jan 2026 – Present

- After the mobile team repeatedly lost track of who owned which platform, began running short weekly check-ins to clarify ownership.
- Found that enabling teammates to unblock each other felt more satisfying than finishing a feature alone, and started seeking more coordination roles.

Skills & Interests

Language: Go, Java, TypeScript

Quality: Unit Testing

Mobile: Native iOS/Android, React Native
