Projects

Project Starwars Planets Search Jan 2023 – Jan 2023
JavaScript, HTML, CSS, React, Cypress, Mocha

- Built a Star Wars planet search app in React with an automated end-to-end test suite using Cypress and Mocha.
- Wrote missing test cases after an unhandled empty-search state caused confusing behavior during a team code review.

Project Solar System Jan 2023 – Sep 2023
JavaScript, CSS, HTML, React

- Developed a React application exploring the solar system, adding unit tests with Testing Library across 53 files.

Spotnews Sep 2023 – Sep 2023
Python, Django, BeautifulSoup, Dockerfile

- Built a Django news aggregator that scraped articles with BeautifulSoup, packaged with Docker and covered by automated tests.

Activities & Extracurriculars

Baia Serena Coding Bootcamp Cohort, Sprint Coordinator Jan 2023 – Sep 2023

- Volunteered to track task ownership after a group project stalled when two teammates unknowingly duplicated the same feature.
- Introduced a shared status board before each sprint review, making it easier to see who was blocked and why.
