Education

Vale Verde Technical Institute, Vale Verde Dec 2025
Bachelor of Science in Software Development
Coursework: Backend Development with Java, Relational Databases, Web Development Fundamentals, Software Testing

Projects

Desafioliteralura Jul 2024 – Jul 2024
Java, Spring Boot, PostgreSQL

- Built a Spring Boot console app that catalogs books by consuming an external API, backed by a PostgreSQL database via JPA.
- Wrote an automated test suite after an early version silently failed on malformed API responses.

Pontofinoestofados Apr 2025 – Apr 2025
JavaScript, Express, MongoDB, EJS

- Built a Node and Express storefront for a furniture retailer, using EJS templates and MongoDB with Mongoose for product data.

Lojavirtual Dotnetcore22 Sep 2022 – Nov 2022
HTML, SCSS, JavaScript

- Built an online store as an early coursework project, one of the first larger codebases spread across 565 files.

Activities & Extracurriculars

Vale Verde Backend Bootcamp Cohort, Study Partner Jun 2024 – Jul 2024

- Paired with a cohort-mate stuck on a broken JPA mapping, tracing the issue back to a mismatched column name in the migration.

Skills & Interests

Language: Java, JavaScript
Frontend: HTML/CSS
Backend: Node.js, Spring Boot
Data: MongoDB, PostgreSQL
DevOps: Kubernetes
Quality: Unit Testing
