Education

Dunmore Cross Polytechnic, Dunmore Cross May 2026
Bachelor of Science in Computer Science; Minor in Technical Communication GPA: 3.6/4.0
Coursework: Web Systems, Databases, Software Testing, Client-Facing Systems Design

Projects

Seeksocial, Personal Project Dec 2022 – Dec 2022
JavaScript, HTML, CSS, Shell

- Built a social-platform front end in JavaScript, HTML and CSS, covering core flows with an automated test suite.
- Organized the implementation across the project's file structure to keep templates and scripts separated.

Theitjobboard, Personal Project Feb 2023 – Mar 2023
JavaScript, CSS, HTML, Shell

- Rebuilt a job-board interface in JavaScript and CSS across 37 files, iterating over nine active days.
- Refined page layout and styling incrementally as the interface took shape.

Jhatpat, Personal Project Jun 2023 – Jun 2023
HTML, CSS, PHP, Hack

- Built a PHP-backed web application with HTML and CSS, structuring the implementation across 410 files.
- Explored a PHP codebase substantially different in structure from earlier JavaScript-based projects.

Activities & Extracurriculars

Dunmore Small Business Help Desk, Site Support Volunteer Jan 2023 – Jun 2023

- Helped classmates debug unfamiliar PHP and JavaScript codebases inherited from earlier group projects.
- Wrote short setup notes after repeatedly re-explaining the same environment steps to different teams.
- Realized adapting quickly to someone else's codebase was the part of the work enjoyed most.

Skills & Interests

Language: JavaScript, SQL
Frontend: HTML/CSS
Quality: Unit Testing
Product: Technical Writing
