Experience

Larkspur Home Goods, Rivermoor Jul 2023 – Dec 2025
Customer Support Technician

- Fielded software configuration complaints from retail staff and traced recurring issues back to inconsistent keyboard shortcut behavior across store devices.
- Documented common troubleshooting steps into a shared reference sheet after noticing new hires repeated the same support calls.

Projects

CMD Delete Feb 2026 – Sep 2026
Java

- Built a macOS Java utility restoring text-navigation shortcuts across chat, book, and sign interfaces after encountering the same friction at work.
- Added continuous integration and an automated test suite to guard the shortcut configurations against regressions.

Llamamod Jan 2026 – Sep 2026
Java

- Developed a Minecraft mod in Java adding custom blocks, farming items, and redstone-based generation features using the MCreator toolchain.
- Sustained continuous integration across a codebase spanning more than 10,000 files over 52 active days of commits.

Python Console Wordle Thingy Jan 2026 – Mar 2026
Python

- Implemented a console-based Wordle clone in Python to practice core language fundamentals outside the Java ecosystem.

Education

Bramwell Technical Institute, Rivermoor Dec 2026
Certificate in Software Development; Minor in Business Communication GPA: 3.8/4.0
Coursework: Systems Troubleshooting, Business Writing, Intro to Databases, Client Communication

Activities & Extracurriculars

Rivermoor Coders Meetup, Documentation Volunteer Jan 2026 – Present

- Rewrote setup instructions for a beginner Java workshop after several attendees got stuck on inconsistent environment steps, cutting confusion during sessions.

Skills & Interests

Language: Java, Python, C/C++
Frontend: HTML/CSS
DevOps: CI/CD
Quality: Unit Testing
Product: Technical Writing
