### Education

---

|                                                                                |              |
|--------------------------------------------------------------------------------|--------------|
| <b>Alderwick College of Applied Studies</b> , Alderwick                        | June 2022    |
| Bachelor of Science in Applied Mathematics; Minor in Public Health Studies     | GPA: 4.4/5.0 |
| Coursework: Statistical Reasoning, Health Systems Seminar, Experimental Design |              |

### Projects

---

|                                                                                                                                                                                                                                                                               |                     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| <b>Hospitalnoshows</b> , Independent Project                                                                                                                                                                                                                                  | Jun 2020 – Jun 2020 |
| Jupyter Notebook                                                                                                                                                                                                                                                              |                     |
| <ul style="list-style-type: none"><li>Explored prediction of hospital no-shows using Kaggle data in a three-file notebook project.</li><li>Developed the project over 7 commits, connecting an interest in appointment records to a structured analytical question.</li></ul> |                     |
| <b>Coursera DL</b> , Independent Coursework                                                                                                                                                                                                                                   | May 2020 – May 2020 |
| Jupyter Notebook, Python                                                                                                                                                                                                                                                      |                     |
| <ul style="list-style-type: none"><li>Completed programming-assignment solutions for a Deep Learning Specialisation, organizing work across 52 repository files.</li><li>Used the assignments to extend Python practice beyond earlier data-analysis exercises.</li></ul>     |                     |
| <b>DS ML Udemy</b> , Independent Coursework                                                                                                                                                                                                                                   | May 2020 – May 2020 |
| Jupyter Notebook, HTML                                                                                                                                                                                                                                                        |                     |
| <ul style="list-style-type: none"><li>Built a 62-file collection of projects while working through a Python data science and machine-learning bootcamp.</li></ul>                                                                                                             |                     |

### Experience

---

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| <b>Larkspur Community Clinic Cooperative</b> , Alderwick                                                                                                                                                                                                                                                                                                                                                                                                              | Sep 2019 – Apr 2020 |
| Records Support Assistant                                                                                                                                                                                                                                                                                                                                                                                                                                             |                     |
| <ul style="list-style-type: none"><li>Reviewed appointment records for administrative follow-up and found attendance questions difficult when records were incomplete or inconsistent.</li><li>Logged ambiguous cases for staff instead of resolving them silently, grounding later discussions in how records were actually produced.</li><li>Became interested in analysis that questions data's source and limitations before interpreting its patterns.</li></ul> |                     |

### Activities & Extracurriculars

---

|                                                                                                                                                                                                                   |                     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| <b>Lantern Student Review</b> , Methods Notes Contributor                                                                                                                                                         | Oct 2019 – May 2020 |
| <ul style="list-style-type: none"><li>Asked peers reviewing dataset claims to document each dataset's origin and gaps, turning recurring questions into notes separating observations from assumptions.</li></ul> |                     |

### Skills & Interests

---

**Language:** Python  
**Frontend:** HTML/CSS  
**Data:** Data Analysis (pandas)
