### Education

**Solmar Institute of Technology**, Solmar Bay May 2027  
Bachelor of Science in Computer Science; Minor in Business Innovation GPA: 3.6/4.0  
Coursework: Intro to Human-Computer Interaction, Lean Startup Practicum, Data Structures, Web Application Design

### Projects

**Login Screen**, Personal Project Oct 2021 – Oct 2021  
Dart, Swift, Kotlin, Objective-C

- Prototyped a mobile login flow with Flutter and Dart, wiring native Swift and Kotlin platform code for iOS and Android.
- Kept the prototype to a single screen to test the flow quickly rather than building a full app.

**Menna Test**, Personal Project May 2025 – Sep 2025  
CSS, Twig, JavaScript, SCSS

- Built a storefront front end with Twig templating, JavaScript and Tailwind CSS across 153 files.
- Configured Babel-based build tooling to support the templated storefront pages.

### Activities & Extracurriculars

**Campus Product Studio**, Founder Sep 2024 – Present

- Started an informal studio prototyping small web and mobile tools for classmates and local shop owners.
- After an early prototype confused a shop owner who could not tell which button mattered, began sketching flows before writing code.

### Skills & Interests

**Language:** C#, SQL

**Frontend:** HTML/CSS, Tailwind CSS

**Mobile:** Flutter, Native iOS/Android
