Experience

Independent Tutoring Practice , Ashford Mills	Jan 2019 – Aug 2020
Academic Tutor	
- Tutored students in math and study planning, noticing missed deadlines often came from disorganized schedules, not the material. - Began sketching a simple app to help students track deadlines, motivating a shift toward computer science coursework.	

Projects

My Assistant App , Personal Project	Oct 2020 – Sep 2022
Kotlin	
- Built an Android app in Kotlin to help students track timetables, deadlines and test dates. - Structured the app across 213 files using Android navigation components.	
My Finance App , Personal Project	May 2023 – Jul 2024
Dart, Swift, Kotlin, Objective-C	
- Built a first cross-platform Flutter app for tracking personal income and expenses, sharing Dart code across platforms. - Documented the setup process as a learning log while picking up Flutter for the first time.	

Education

Ashford Mills College , Ashford Mills	May 2024
Bachelor of Science in Computer Science	GPA: 3.5/4.0
Coursework: Mobile App Development, Human-Centered Computing, Intro to Programming	

Activities & Extracurriculars

Ashford Mills App Builders Meetup , Mentor and Notes Writer	Mar 2022 – Present
- Started writing short Kotlin setup guides after newer members struggled with the same Android Studio steps. - Found explaining mobile development concepts to beginners more energizing than solo building.	

Skills & Interests

Mobile: Native iOS/Android, Flutter
Data: Redis (Advanced)
