

Owen Castellan

Milbrook | (555) 010-0141 | owen@corvaleview.example | linkedin.example.com/in/owen-castellan | github.example.com/owen-castellan

Education

Corvale University, Milbrook

June 2026

Bachelor of Science in Computer Science

Coursework: Software Testing, Object-Oriented Design, Data Structures

Projects

PersistentObjectStorage

Aug 2021 – Mar 2022

Java

- Built a Java library for persisting objects to a per-user folder, including first-run detection logic.
- Added an automated test suite after an edge case in first-run detection surfaced during manual testing.

FileHashComparator

Dec 2024 – Dec 2024

Swift

- Wrote a Swift command-line tool that generates file hashes and compares them to flag differences.
- Organized the 15-file project to separate hashing from comparison logic, aiding manual verification.

Activities & Extracurriculars

Corvale Campus Coding Help Desk, Peer Debugging Volunteer

Sep 2023 – Present

- Noticed peers' bug reports often lacked steps to reproduce failures, making issues hard to confirm.
- Introduced a short reporting checklist covering environment, steps, and expected versus actual behavior.
- Found that clearer reports cut back-and-forth with peers, and started writing tests instead of one-off fixes.

Skills & Interests

Language: JavaScript, Java, Python

Frontend: HTML/CSS

Quality: Unit Testing

Mobile: Native iOS/Android
