Dunmore | (555) 010-0148 | malik@dunmorepoly.example | linkedin.example.com/in/malik-yeboah | github.example.com/malik-yeboah

Education

Dunmore Polytechnic, Dunmore June 2026
Bachelor of Science in Information Technology
Coursework: Mobile Application Development, Systems Programming, UI Design Fundamentals

Projects

Chequewallet Apr 2022 – Jun 2022
Dart, Swift, Kotlin

- Started a Flutter wallet app scaffold spanning Dart, Swift and Kotlin to learn cross-platform project structure firsthand.

Location Tracking Dec 2022 – Dec 2022
Dart, Swift, Kotlin

- Built a companion location-tracking Flutter app, prototyping a shared Dart codebase deployed to both iOS and Android targets.

Location Tracking Admin Dec 2022 – Dec 2022
Dart, Swift, Kotlin

- Paired it with a separate admin app scaffold for reviewing tracked data, treating the companion tooling as seriously as the main app.

Activities & Extracurriculars

Dunmore Student Makers Space, Peer Builder Jan 2023 – Present

- After a teammate's build broke only on iOS during a weekend app jam, tracked down the platform-specific cause.
- Wrote up the fix as a short note for the team, and started double-checking new prototypes on both platforms early.

Skills & Interests

Mobile: Flutter, Native iOS/Android
