Bachelor of Science in Computer Science; Minor in Business Administration GPA: 3.65/4.0
Coursework: Human-Computer Interaction, Intro to Product Management, Databases

Projects

Appediback Oct 2025 – Feb 2026
JavaScript, TSQL

- Built a Node.js backend with JWT authentication and bcrypt password hashing, connecting to a TSQL database for the Appedi application.

Appedifront Nov 2025 – Sep 2026
Dart, C++, CMake, Swift

- Built the companion Flutter front end in Dart and C++, aligning UI flows with the backend's authentication endpoints.

Activities & Extracurriculars

Ferrous Hill App Collective, Feature Planning Volunteer Nov 2025 – Present

- When teammates disagreed on login error messages, drafted a table mapping backend auth codes to plain-language user feedback.
- Enjoyed reconciling what the authentication system actually allowed with what the interface promised users more than writing new endpoints.
