Experience

Fennimore Bistro Row, Fennimore Jun 2022 – Aug 2023
Line Cook / Shift Lead

- Tracked nightly food waste by hand after portions were over-prepped, noticing the pattern repeated across shifts.
- Raised the waste pattern with management, prompting an informal tracking sheet the kitchen kept using.

Projects

Restaurant Rescue Sep 2023 – Sep 2023
Python

- Built Restaurant Rescue, a Python and Streamlit prototype using Firebase to log surplus food for pickup.
- Piloted a matching model with torch to rank likely food-rescue matches from logged surplus entries.

Login Springboot Aug 2024 – Aug 2024
Java, CSS, HTML

- Implemented a Spring Boot login service with OAuth2 resource-server config and an automated test suite.

Education

Fennimore State University, Fennimore May 2027
Bachelor of Science in Computer Science; Minor in Hospitality Management GPA: 3.5/4.0
Coursework: Data Structures, Entrepreneurial Finance, Applied Machine Learning, Food Systems Management

Activities & Extracurriculars

Fennimore Food Recovery Network, Volunteer Coordinator Sep 2023 – Present

- Coordinated volunteer pickup schedules between three kitchens, reducing last-minute no-shows the network had struggled with.

Skills & Interests

Language: Python, Java
Frontend: HTML/CSS, Tailwind CSS
Backend: Spring Boot
Data: Data Visualization, Data Analysis (pandas)
AI/ML: Deep Learning
DevOps: GCP/Azure
Quality: Unit Testing
