Education

Redgate Institute of Technology, Marlow Creek May 2027
Bachelor of Science in Computer Science GPA: 3.8/4.0
Coursework: Mobile App Development, Data Structures, Software Testing

Projects

Sahaayak Apr 2025 – Oct 2025

Kotlin

- Built an Android personal-safety app in Kotlin that reads sensor and microphone data to flag risk in real time.
- Wired the risk model to auto-trigger SMS alerts, location sharing, and an alarm, integrating on-device detection with everyday phone features.

Pythontutorial

Dec 2025 – Sep 2026

Python, Jupyter Notebook, HTML

- Maintained a large Python and Jupyter Notebook teaching repository with an automated test suite across sustained daily commits.

Portfolio

Mar 2026 – Jun 2026

HTML, CSS, JavaScript

- Designed a 3D-interactive personal site in HTML, CSS, and JavaScript, using glassmorphism styling and a terminal-style splash screen.

Activities & Extracurriculars

Redgate Mobile Dev Circle, Peer Reviewer Sep 2025 – Present

- After a safety-app teammate's sensor logic broke silently on a classmate's device, started requiring test coverage before merging Android changes.
- Reviews classmates' Android pull requests, walking newer students through why an untested sensor edge case can fail only on certain phones.

Skills & Interests

Language: Python, JavaScript

Frontend: HTML/CSS

Data: Data Modeling, Data Analysis (pandas)

Quality: Unit Testing

Mobile: Native iOS/Android
