

Denny Okafor

Cresthollow | (555) 010-1391 | denny@cresthollow.example | linkedin.example.com/in/denny-okafor | github.example.com/denny-okafor

Education

Cresthollow Polytechnic, Cresthollow May 2028
Bachelor of Science in Information Systems; Minor in Entrepreneurship GPA: 3.5/4.0
Coursework: Web Application Development, Intro to New Ventures, Systems Administration

Projects

Songlinker Jun 2023 – Feb 2026

JavaScript, Dockerfile

- Built and kept running a Discord bot that detects music links and rewrites them as cross-platform song links using discord.js and odesli.js.
- Packaged the bot with Docker and continuous integration so it could be redeployed reliably as small fixes accumulated over years.

Uwuifierbot May 2022 – May 2025

JavaScript, Dockerfile

- Shipped a text-transforming Discord bot to a small public server audience, maintaining it with Docker packaging and continuous integration.

Blahaj Mar 2024 – Sep 2025

Svelte, JavaScript, Tailwind CSS

- Built a playful Svelte and Tailwind CSS web app, iterating across 64 commits after early layouts didn't read well on mobile.

Activities & Extracurriculars

Cresthollow Indie Makers Meetup, Regular Demo Presenter Jan 2025 – Present

- Keeps a rotation of small side-project bots and sites running for real users years after launch instead of abandoning them post-demo.
- After a bot's userbase kept requesting features through scattered Discord messages, started tracking requests before deciding what to build next.

Skills & Interests

Language: JavaScript, TypeScript

Frontend: Tailwind CSS, HTML/CSS

Data: Data Modeling

DevOps: CI/CD, Docker, Linux & Server Administration
