Education

Camden Hollow College of Engineering, Camden Hollow May 2028
Bachelor of Science in Aerospace Engineering; Minor in Computer Science
Coursework: Flight Dynamics, Intro to Programming, Engineering Design

Projects

Dynamics Simulation Aerospace W CADAC Course Apr 2022 – Apr 2022
C++, AGS Script

- Completed an aerospace dynamics simulation course project in C++, structuring flight-model logic and a scripted output pipeline across 37 files.
- Iterated over three active days after an early model produced physically implausible results, isolating the faulty calculation.

Luainjectorfromfile Java Apr 2023 – Apr 2023
Java

- Built a small Java utility for loading Lua scripts from file, written mainly to practice Java outside coursework.

Simpleprograms Feb 2020 – Apr 2025
Pascal, Python, MATLAB

- Maintained a personal collection of small Pascal, Python and MATLAB programs across five years to practice new syntax.

Activities & Extracurriculars

Camden Hollow Campus Makers, Side-Project Night Organizer Sep 2025 – Present

- Started a monthly meetup where students demoed unfinished side projects, since most campus events only showcased polished work.
- Began pairing first-time presenters with a returning member after noticing newcomers rarely returned without a familiar face nearby.

Skills & Interests

Language: C/C++, Java, Python
