

Noor Delacroix

Ashford Mills | (555) 010-0141 | noor@ashfordmills.example | linkedin.example.com/in/noor-delacroix | github.example.com/noor-delacroix

Education

Ashford Mills College of Technology, Ashford Mills May 2027
Bachelor of Science in Computer Science; Minor in Technical Communication
Coursework: Human-Computer Interaction, Software Engineering Practices, Database Systems, Technical Writing

Projects

Family Tree Apr 2026 – Apr 2026
TypeScript, NestJS, React, PostgreSQL, Neo4j

- Built a family-tree app with a NestJS backend and React frontend, modeling relationships across PostgreSQL and Neo4j.
- Added GEDCOM import/export and collaboration features so relatives could edit a shared tree together.

Doodledraw Mar 2026 – Apr 2026
TypeScript, HTML, JavaScript, Docker, Playwright

- Developed a multiplayer drawing game in TypeScript, packaging it with Docker and an automated Playwright test suite.
- Debugged timing-dependent multiplayer failures, learning to reproduce state-dependent bugs before trusting a fix.

All App Feb 2026 – Feb 2026
TypeScript, React Native, Expo

- Built a cross-platform React Native app with Expo, targeting shared behavior across iOS and Android.
- Chose Expo's component library to keep the interface consistent without duplicating platform-specific logic.

Experience

Ashford Mills College IT Help Desk, Ashford Mills Sep 2025 – Present
Peer Technical Consultant

- Translated ambiguous error reports from student researchers into reproducible steps the systems team could act on.
- Noticed recurring confusion during account migrations and drafted a short walkthrough that cut repeat tickets.

Skills & Interests

Language: TypeScript

Frontend: React, HTML/CSS

Backend: Node.js

Data: Data Modeling

DevOps: Linux & Server Administration, Docker, CI/CD

Quality: Integration & E2E Testing, Unit Testing

Mobile: React Native
