

Kenji Ishida

Cedar Hollow | (555) 010-0168 | kenji@cedarhollow.example | github.example.com/kenji-ishida

Education

Cedar Hollow Institute of Technology, Cedar Hollow May 2026
Bachelor of Science in Computer Science
Coursework: Game Development, Networked Systems

Projects

Stoptalkmac, Personal Project May 2024 – May 2024
Python, PowerShell, Shell, JavaScript

- Built with Python, PowerShell, Shell across 4919 files.
- Includes an automated test suite.
- 3 commits over 1 active day.

Stop Talk, Personal Project May 2024 – May 2024
Python, PowerShell, JavaScript, Shell

- Built with Python, PowerShell, JavaScript across 1731 files.
- Includes an automated test suite.
- 1 commit over 1 active day.

Sprout Man, Personal Project Apr 2023 – Apr 2023
JavaScript, TypeScript, HTML, Nix

- Built with JavaScript, TypeScript, HTML across 652 files.
- Uses express, ws, @replit/database, esbuild, kaboom, stacktrace-js.
- Includes an automated test suite.
- 5 commits over 1 active day.

Project P, Personal Project Oct 2023 – Dec 2023
ShaderLab, C#, HLSL, HTML

- Mario-Game.
- Built with ShaderLab, C#, HLSL across 342 files.
- 48 commits over 10 active days.

Activities & Extracurriculars

Cedar Hollow Game Jam Collective, Technical Contributor Oct 2023 – Dec 2023

- Built a small C# and shader-based game prototype, then spent more time fixing teammates' broken WebSocket connections than writing gameplay code.
- Started documenting common client-server bugs for teammates after realizing most confusion came from mismatched setup instructions, not the code itself.

Skills & Interests

Language: Python, JavaScript, C/C++, C#
Backend: Node.js, Realtime & WebSockets
Quality: Unit Testing
