

## Elena Voss

Ashford Falls | (555) 010-0182 | elena.voss@ashcombe.example | linkedin.example.com/in/elena-voss |  
github.example.com/elena-voss

### Education

**Ashcombe University of Technology**, Ashford Falls May 2027  
Bachelor of Science in Computer Engineering; Minor in Visual Arts  
Coursework: Computer Graphics, Data Structures, Human-Computer Interaction, Digital Systems

### Projects

**Wintercubetimer** Sep 2022 – Jul 2025  
C#, WinForms

- Built a C# WinForms Rubik's Cube timer, designing session tracking, scramble generation and a real-time cube visualization across 43 files.
- Iterated on the cube-visualization rendering after early versions felt disorienting during fast solves, adjusting animation timing for clearer feedback.

**Lazaropenglengine3d** Dec 2022 – Oct 2023  
C++, C, GLSL

- Wrote a pseudo-3D game engine in C++ and OpenGL, structuring rendering and scene logic across 905 files.
- Explored low-level graphics programming independently, building comfort with the rendering pipeline outside coursework.

### Activities & Extracurriculars

**Ashcombe Retro Arcade Circle**, Cabinet Restoration Volunteer Sep 2023 – Present

- Repaired aging arcade cabinets with mismatched CRT timings, learning to diagnose display issues before touching any code.
- Gave a short walkthrough to newer members on how raster displays render frames, translating hardware quirks into plain language.

### Skills & Interests

**Language:** C/C++, C#, JavaScript, Java  
**Frontend:** Vue  
**Data:** Data Modeling  
**Quality:** Unit Testing
