Education

Reedmoor College of Technology, Reedmoor May 2027
Bachelor of Science in Software Engineering; Minor in Professional Writing GPA: 3.7/4.0
Coursework: Mobile App Development, Technical Communication, Object-Oriented Design

Projects

YT Tracker Mobile, Independent Project Feb 2026 – Feb 2026
Swift

- Built a Swift iOS app to track and organize saved videos across 32 files over nine active days.
- Documented local setup steps after a classmate could not get the project running from the README.

Editormain, Independent Project Oct 2025 – Sep 2026
C#, ShaderLab, HLSL

- Maintained a C# editor tool with custom ShaderLab and HLSL shaders across 485 files and 200 commits.
- Wrote inline comments and a changelog so contributors could follow shader changes without asking directly.

Portfolioito, Independent Project Jun 2025 – Nov 2025
Swift, TypeScript, CSS, JavaScript

- Built a personal portfolio site in Swift and TypeScript to showcase mobile and web projects.
- Reorganized the project's structure after a peer struggled to find where key components lived.

Activities & Extracurriculars

Reedmoor Coders Circle, New Member Guide Writer Jan 2026 – Present

- Wrote onboarding guides for new club members after noticing repeated setup questions in the group chat.
- Ran two walkthrough sessions on mobile app setup, adjusting explanations after members got stuck at different steps.

Skills & Interests

Language: JavaScript, C#, TypeScript
Mobile: Native iOS/Android
