Education

Wraithmoor College, Wraithmoor May 2026
Bachelor of Science in Computer Science GPA: 3.9/4.0
Coursework: Mobile App Development, Computer Graphics, Operating Systems, Software Testing

Projects

Metalgoose Dec 2025 – Aug 2026

Swift, Metal

- After years of writing Python utility scripts, started experimenting with Swift and Metal out of curiosity about how native iOS rendering actually worked.
- Set up continuous integration for the resulting rendering project as outside contributors began opening pull requests, catching build breaks before they reached users.
- Grew the project to 172 stars and 9 forks on GitHub.

Sort Unused

Dec 2023 – Dec 2025

Python

- Published a lightweight Python tool for flagging unused project files, which attracted independent adopters and 24 GitHub stars.

Activities & Extracurriculars

Wraithmoor Mobile Dev Circle, Member

Jan 2026 – Present

- Paired with a classmate debugging a SwiftUI layout issue that only appeared on certain device sizes, tracing it to a misunderstood auto-layout constraint.

Skills & Interests

Language: Python

DevOps: CI/CD

Mobile: Native iOS/Android
