Education

Alderpoint College, Fenwick Harbor May 2027
Bachelor of Arts in Statistics; Minor in Media Studies GPA: 3.7/4.0
Coursework: Data Visualization, Survey Methods, Human-Computer Interaction

Projects

Chicago Reimbursements Site Dec 2025 – Sep 2026

Jupyter Notebook

- Built an auto-updating scraper pipeline in Jupyter Notebook tracking city employee reimbursement payments for public transparency.
- Added continuous integration to keep the dataset current, then restructured the site's layout after early readers found the raw tables confusing.

Baby Names IOC

Feb 2026 – Feb 2026

R, HTML

- Designed a survey and used R to analyze the gender split of baby names across recent years.
- Rebuilt a cluttered ggplot for-loop into simpler charts after peers struggled to compare name trends at a glance.

Thomas Frank Spurs

Feb 2026 – Apr 2026

Jupyter Notebook, HTML

- Analyzed a football manager's tenure using Jupyter Notebook, translating match statistics into readable visual summaries for casual fans.

Activities & Extracurriculars

Alderpoint Data Story Night, Founding Organizer Jan 2026 – Present

- Organized a recurring night where classmates presented data projects to non-technical peers, coaching presenters to lead with takeaways over methods.
- Noticed peers' charts were technically sound but hard to read, and began sketching simpler layouts before finalizing analysis.

Awards & Accomplishments

Dean's List, Fall 2025

Skills & Interests

Language: Python

Frontend: HTML/CSS

Data: Data Analysis (pandas)

DevOps: CI/CD
