Education

Rosewood Institute of Technology, Rosewood Bay June 2026
Bachelor of Science in Computer Science; Minor in Cognitive Science
Coursework: Human-Computer Interaction, Web Application Development, Intro to Artificial Intelligence

Projects

Bytetalk Jul 2023 – Sep 2023

JavaScript, CSS, Next.js

- Built a Next.js chat application with authentication, adding a GPT-Advisor feature using the OpenAI API to draft reply suggestions.
- Noticed the assistant's suggestions broke formatting in edge cases, and iterated on prompts to make output more predictable.

Just A Blog

Aug 2023 – Sep 2023

JavaScript, CSS, Next.js

- Built a blog application with Next.js and Sanity CMS, modeling content types for articles and categories.

Reactsounds

Aug 2023 – Oct 2023

JavaScript, CSS, HTML

- Developed a React music browsing app styled with Tailwind CSS, letting users explore artists, albums and playlists.

Activities & Extracurriculars

Rosewood Web Dev Meetup, Workshop Helper Oct 2023 – Present

- Ran a short session for classmates on integrating third-party APIs into React projects after several asked the same setup questions.
- Simplified the walkthrough into a one-page setup guide after some attendees got stuck configuring environment variables.

Skills & Interests

Language: JavaScript

Frontend: React, Tailwind CSS, Next.js

Backend: Authentication & Authorization (Advanced)

Data: Data Modeling

AI/ML: LLM Application Development

DevOps: Linux & Server Administration
