

Diego Salcedo

Rivermont | (555) 010-0102 | diego@rivermont.example | github.example.com/diego-salcedo

Education

Rivermont University, Rivermont May 2026
Bachelor of Science in Computer Science; Minor in Human-Computer Interaction
Coursework: Mobile App Development, Data Structures, Software Testing

Experience

Rivermont Student App Studio, Rivermont May 2025 – Aug 2025
Mobile Engineering Intern

- Wrote unit tests for a Kotlin Android module, catching a null-state crash before it reached the shared branch.
- Paired with a senior engineer to review pull requests, learning to flag layout logic that broke on smaller screens.

Projects

Todoappgroupproject May 2023 – Apr 2025
Kotlin, CSS, Java

- Built the Android client for a group to-do app in Kotlin, integrating JUnit tests and a continuous integration pipeline.
- Debugged a sync issue where offline edits were overwritten on reconnect, tracing it to a missing conflict check.

Theportfoliosite Mar 2026 – Jul 2026
TypeScript, CSS, Shell, React, Next.js, Tailwind CSS

- Developed a personal portfolio site with Next.js, React and Tailwind CSS, iterating across 70 files over ten sessions.
- Refactored shared layout components after duplicated styling made small design changes slow to propagate across pages.

Hack The North 2025 Sep 2025 – Sep 2025
GDScript, Python

- Prototyped an interactive project in Godot's GDScript with a Python backend during a 36-hour hackathon sprint.
- Coordinated with two teammates under a tight deadline, splitting scene logic and backend scripting to avoid blocking each other.

Skills & Interests

Language: Python, TypeScript, JavaScript
Frontend: Next.js, React, Tailwind CSS, HTML/CSS
DevOps: CI/CD
Quality: Unit Testing
Mobile: Native iOS/Android
