Education

Fenwick College of Technology, Fenwick Hollow May 2025
Bachelor of Science in Computer Science; Minor in Organizational Communication GPA: 3.7/4.0
Coursework: Human-Computer Interaction, Agile Software Practicum, Data Structures, Intro to Cloud Computing

Projects

Food Wizard, Personal Project May 2024 – May 2024
JavaScript, HTML, CSS

- Built a recipe-suggestion web app with React and Tailwind CSS, covering core interactions with React Testing Library.
- Organized the interface across 39 files to keep components reusable as features were added.

Netflix Clone, Personal Project Jan 2021 – Aug 2021
JavaScript, HTML, Shell

- Rebuilt a streaming-service interface in React with Firebase auth, Context API and styled components.
- Added component tests with React Testing Library to check core screens rendered correctly.

Activities & Extracurriculars

Fenwick Web Projects Circle, Peer Project Coordinator Jan 2021 – May 2021

- After a group prototype stalled when two members built conflicting versions of the same screen, started a shared one-page spec.
- Noticed teammates shipped features more confidently once expectations were written down, and kept using short specs afterward.

Skills & Interests

Language: JavaScript, C#

Frontend: React, Tailwind CSS, HTML/CSS

DevOps: GCP/Azure
