Education

Alvora Institute of Technology, Porto Alvora Dec 2027
Bachelor of Science in Computer Science; Minor in Finance GPA: 8.7/10.0
Coursework: Data Structures and Algorithms, Object-Oriented Programming, Numerical Methods,
Databases

Projects

Sistema Banc Rio Jan 2023 – Jan 2023
Python, C, Cython

- Built a banking-system simulation in Python and C, using Cython to bridge performance-sensitive components across 9,878 files.
- Integrated Flask and NumPy to model core banking operations, structuring the project's data layer for a university systems course.

Alest1 Sep 2026 – Sep 2026
Python

- Implemented core data structures and algorithms in Python for a data-structures course, earning the top grade in the section.

Activities & Extracurriculars

Alvora Community Finance Workshop, Volunteer Workshop Assistant Sep 2022 – Dec 2022

- Helped neighbors organize personal budget spreadsheets, noticing how many financial tools failed to handle irregular income patterns.
- That gap motivated closer attention to numerical precision and edge cases while building the banking-system project afterward.

Skills & Interests

Language: Python, Java
Backend: Flask/FastAPI
Data: Data Analysis (pandas), Data Modeling
Quality: Unit Testing
