Education

Ashford Bay Polytechnic, Ashford Bay May 2027
Bachelor of Science in Computer Science; Minor in Communication Studies GPA: 3.6/4.0
Coursework: Human-Computer Interaction, Intro to Algorithms, Web Application Development

Projects

Realmbreakgame, Independent Project Dec 2025 – Sep 2026
C#, ShaderLab, HLSL

- Developed a fantasy game in C# with custom ShaderLab and HLSL shaders, sustaining 92 active development days.
- Cut several planned mechanics after solo playtesting showed they confused rather than improved the experience.

Cat Breed Guesser, Independent Project Nov 2025 – Nov 2025
Python, JavaScript, CSS

- Built a Python and JavaScript web app that classifies cat breeds from user-submitted photos.
- Simplified the upload flow after early testers were unsure what input the tool expected.

Calorie Clash, Independent Project Nov 2025 – Nov 2025
JavaScript, CSS, HTML

- Built a JavaScript and CSS web app for comparing meal choices during a weekend build session.
- Rewrote onboarding copy after a tester misunderstood the app's comparison feature on first use.

Activities & Extracurriculars

Rivermouth Game Jam, Playtest Coordinator Sep 2025 – Present

- Ran playtests for five student teams, translating vague player feedback into specific scope decisions before deadline.
- Noticed teams cut features late and introduced a pre-jam scope checklist adopted the following semester.

Skills & Interests

Language: Python, C#, JavaScript
Frontend: HTML/CSS
