

Derek Ashby

Thornfield | (555) 010-0106 | derek.ashby@thornfield.example | linkedin.example.com/in/derek-ashby | github.example.com/derek-ashby

Education

Thornfield State University, Thornfield May 2026
Bachelor of Science in Computer Science; Minor in Organizational Communication GPA: 3.5/4.0
Coursework: Software Engineering Practices, Data Structures, Technical Writing for Engineers, Team Dynamics

Experience

Mosswood Interactive, Thornfield May 2026 – Aug 2026
Build & Tools Intern

- Noticed build failures were often reported without reproduction steps, and introduced a short checklist covering environment, branch, and last passing commit.
- Wrote setup documentation for the CI pipeline after new contributors kept asking the same onboarding questions.

Projects

Archipelagomusicclient Oct 2025 – Sep 2026
Java, JavaFX

- Built a Java music player client with JavaFX for use alongside archipelago randomizer music manuals.
- Set up continuous integration and an automated test suite, sustaining 200 commits over 25 active days.

Contractorsloophole Jul 2026 – Jul 2026
C#, BepInEx

- Wrote a small C# mod for a powerwashing simulator using BepInEx, adding quality-of-life improvements over 38 commits.

Adventures Of Dreamland Dec 2023 – Jun 2026
Python, Pillow

- Maintained a Python project across 33 files and 71 commits over more than two years, using Pillow for image handling.

Activities & Extracurriculars

Thornfield Modding Collective, Contribution Coordinator Jan 2026 – Present

- Started organizing contributor pull requests into a shared milestone board after overlapping work led to duplicated fixes twice in one month.

Skills & Interests

Language: Python, Java, C#
DevOps: CI/CD
Quality: Unit Testing
Product: Technical Writing
