Projects

Moveit Next Feb 2021 – Mar 2021
TypeScript, Next.js, CSS

- Built Moveit Next, a Next.js and TypeScript app from a web development bootcamp sprint, styled with custom CSS.

Saboroteca May 2025 – Jul 2025
TypeScript, Firebase, React Testing Library

- Built Saboroteca, a TypeScript app integrating Firebase, and added unit tests with React Testing Library after early releases broke silently.
- Deployed the app to GCP, learning to catch configuration drift between local and cloud environments.

Databook Jun 2022 – Jun 2022
TypeScript, Next.js, Chakra UI

- Built Databook, a Next.js app styled with Chakra UI and Emotion, focused on a clean reading interface.

Activities & Extracurriculars

Verrone Web Dev Study Circle, Peer Mentor Mar 2023 – Dec 2024

- Reviewed classmates' pull requests after a cohort project stalled on merge conflicts, and wrote a short branching guide.
- Paired with newer members struggling with React state bugs, walking through the component tree until the cause was clear.
