Education

Talbrook College, Talbrook June 2027
Bachelor of Science in Computer Science; Minor in Public Policy
Coursework: Intro to Mobile Development, Information Security Fundamentals, Human-Computer Interaction

Projects

Up Feb 2024 – Feb 2024
Dart, C++, CMake, Swift

- Prototyped a small cross-platform app scaffold in Dart and Swift, exploring project structure across native and Flutter code.

Adsteptrain Jan 2022 – Jan 2022
Dart, Swift, Kotlin

- Set up an early Flutter prototype spanning Dart, Swift and Kotlin to test a shared codebase across mobile platforms.

Activities & Extracurriculars

Talbrook Student Security Interest Group, Discussion Organizer Sep 2024 – Present

- While reviewing a classmate's mobile prototype, noticed it requested far more device permissions than its features needed.
- Started a recurring group discussion on app permissions and data handling for student projects, inviting classmates to walk through their own apps.
- Found that most over-broad permission requests came from copied boilerplate, and began flagging this pattern for peers before they shipped anything.

Skills & Interests

Language: C/C++
Mobile: Flutter, Native iOS/Android
